CAN'T PUNCTURE NOR BLOW OUT

DAYTON AIRLESS TIRES in the past 9 years have been used by thousands of owners of light passenger and delivery cars in all parts of the civilized world, and have conclusively demonstrated:

- 1st-They can't puncture nor blow out. 2nd-They ride smoothly and comfortably. 3rd-They give much longer wear than the average pneumatic.

They have been endorsed by thousands of satisfied users, including the late George Westinghouse and Edward Grey, formerly Chief Engineer of the Ford Motor Company.

THE DAYTON AIRLESS TIRE CO. Department N DAYTON, OHIO

Spier, C. O. Fitch, Chris Jensen, Jack Garvin, H. E. Brown, C. A. Conant, C. L. Church.

MRS. A. B. RICH DIES IN OMAHA HOSPITAL

Mrs. A. B. Rich, daughter of Mr. and Mrs. Geo. L. Niebuhr, of this place, passed away Friday night, September 17, 1929, at an Omaha hospital, where she had been for several months receiving treatment for the after effects of the flu.

Deceased was born in Dakota City September 16, 1889, and resided here until her marriage to Prof. A. B. Rich. Their home for the past year has been at Bloomfield, Neb., where he is superintendent of the schools. She was a graduate of the Dakota City high school in the class of '06, and taught school for several terms in this and Thurston counties. She was a member of Dakota Chapter No. 65, Order of the Eastern Star, of this place.

She leaves to mourn her departure her husband and two small children, also her parents, two sisters and two brothers.

The remains were taken to Wisner, Neb., the former home of Mr. Rich, where on Monday funeral services were held, and the body was then shipped to Sioux City Tuesday and buried in Graceland Park cemetery.

The sympathy of the community goes out to the bereaved ones in the loss of a daughter, wife and mother, taken from them while yet in the prime of life, and at a time when her companionship was most needed and appreciated.

This Iowa Man Has Gained 30 Pounds

LOST STRENGTH AND ENERGY HAVE RETURNED SINCE HE BEGAN TAKING TANLAC.

"Since I began taking Tanlac I have not only gained thirty pounds in weight but an enjoying better general health than I have in years, and I just can't find words to express my gratitude for what it has done for me," said Charles J. Paukert, 804 Oakland Avenue, Cedar Rapids, Iowa, weighmaster for the Quaker Oats Co.

"I had always been a strong, healthy man up to about three years ago, but at that time I began losing weight and strength until finally I had no energy left and was in a badly run-down condition. Although I tried many different kinds of medicines, until I started taking Tanlac I had never found anything that did me any good. My stomach was in bad condition. I had no appetite and every time I did manage to eat a little something I would fill up with gas until I would be in perfect misery for hours afterwards, and I suffered with heart-burn so bad just about all the time that it nearly drove me distracted.

"Finally on the advice of a friend who had taken Tanlac with fine results, I began taking it. Well, in a short while I had a splendid appetite and could eat just anything I wanted without having a sign of gas, and I have not had the heart-burn since taking the first few doses of Tanlac. I continued taking it and continued to improve until now I feel like a different person. I have regained my lost weight and strength and feel just simply fine all the time. I am only too glad to have this statement published, hoping it may be of benefit to someone else who may be suffering as I was."

Tanlac is sold in Dakota City by Neiswanger Pharmacy, in South Sioux City by McBeath's Pharmacy, in Homer by Brassfield & Jensen, in Hubbard by Dugan & Heffernan.—Advertisement.

FIGURE COST OF GROWING CORN

Dakota County Furnishes Figures on Cost of Growing Corn.

Figures furnished the State College of Agriculture by farmers of Dakota County show that the labor of growing corn up to July 23rd cost an average of more than \$10 an acre. The agricultural agent of the county assisted in keeping accurate records on forty-eight fields. There was considerable variation in the cost on the different farms, running from \$6.72 to \$18 an acre. Where tractors were used the cost was increased about 69 cents an acre. This cost includes only man and horse labor. The cost of seed, harvesting, marketing, interest on investment and other expense must be added before complete figures will be available on the cost of growing corn this year. It is probable that the total cost will be near \$40 an acre, as land in Dakota county is held at a high figure.

MATRIMONIAL VENTURES.

The following marriage licenses were issued by County Judge McKinley during the past week:

Chapman, Sioux City, Legal

Laundering Bulletin for Women

"Home Laundering" is the name of a new United States Department of Agriculture bulletin which will be of interest to many women. It deals with the laundry room, equipment, method of laundering, special cleaning and pressing, general laundry supplies, ironing, drying, bluing, washing different kinds of material, etc. Washing and ironing are among the hardest jobs the housewife has to perform, and this bulletin makes many valuable suggestions as to how this work can be lessened by using good supplies, proper equipment and following the best methods. In the building of a new home or the remodeling of an old one the housewife should plan her laundry room as carefully as she plans her kitchen. With the increased use of electricity and gasoline many women now have power washing machines and electric irons. These go a long way toward removing the drudgery of wash day. The use of the best known methods also helps to do the job efficiently. Write the Coll. age of Agriculture at Lincoln for farmers' bulletin 1099, "Home Laundering."
